SYMPOSIUM 2012

Merseyside Maritime Museum, Albert Dock, Liverpool, UK

Monday 16th April - Wednesday 18th April

DELEGATE AND EXHIBITOR INFORMATION

The SAFE (Europe) Chapter was formed in 1982 to extend the benefits of the SAFE Association to a wider audience. Through an annual symposium and exhibition we provide an excellent forum for the exchange of information between industry, government procurement agencies and research establishments in the field of survival and flight equipment for both military and civil applications.

SAFE (Europe) has the fundamental aim of encouraging safety and survival through technical excellence by encouraging and stimulating dialogue between professional agencies, specialist equipment producers and the worldwide user community.

The 19th Symposium begins with a welcome reception on the evening of Monday 16th April. This is followed by 2 days of technical presentations and an associated exhibition. The Gala Dinner on the evening of the 16th April is the ideal networking opportunity.
